Professional Summary

Customer-service leader with 8 years in Japanese telecom operations. Expert in building multi-channel support teams, integrating CRM analytics, and transforming NPS insights into measurable loyalty gains. Recognized for calm crisis management during network outages and cross-functional collaboration with engineering and billing units.

Core Competencies

Team Leadership | CRM Systems (Salesforce, Zendesk) | Telecom Billing & Provisioning | Process Design | CX Analytics | Complaint Resolution | SLA Governance

Experience

NTT Docomo – Customer Service Lead (2019 – Present)

- Supervise a 24-member team supporting 5 million post-paid customers.
- Reduced average resolution time from 18 to 14 hours through workflow automation.
- Introduced daily “voice-of-customer” stand-ups; cut repeat calls by 12%.
- Co-designed outage communication scripts with network engineering.

SoftBank Telecom – Service Associate (2015 – 2019)

- Handled escalations across mobile and fiber segments; maintained 96% CSAT.
- Trained new agents on empathy-first service model adopted nationwide.

Education B.A. in Communications, Waseda University
